Penslar Asthma Remedy

is not offered as, or claimed to be, a cure. No one could compound a cure that would fit many cases—for asthma is due to many different conditions and usually it takes a most expert physician to determine the cause.

But we do claim that it will give you quick and harmless relief and render your breathing easy and normal again. It ought to be worth a good deal to you to know that you have such a remedy at hand. A 50 cent box contains enough for many treatments. The formula is on the package of course. That is the Penslar way of doing things—no secrecy—no exaggerated claims—but on the contrary, you can read on the label just what each remedy contains, and a frank and truthful statement of what may be expected from its use.

News and Comment

A schoolboy at Salem, Ohio, killed his sweetheart and himself because they were too young to wed, seeming to forget that time would remedy the defect.

The Oregon Progressives want to abolish the Governor and the Legislature and adopt the Commission form of government. Not a bad idea. Most Governors are figure-heads and nearly all Legislatures are bad.

Oklahoma is said to have over 100,000 acres in peanuts. The number of acres required to hold peanut politicians is not given.

When Secretary Taft, who had been at the Capitol, told the President of the passage of the tariff bill by the Senate, he said with much enthusiasm, "Great!" Roosevelt would have said "Bully." Which is the most genteel?

It is stated that Postmaster General Burleson has appointed an average of 32 postmasters a-day since he has been in office. If he expects to have all the rascals out in four years, he'll have to get a move on and do better than that.

The new New Haven president says he is going to make the road the safest in the country. Perhaps he won't be able to do after paying for all the people who he killed and wounded.

The Smiths will have to look to their laurels. The Johnsons outnumber them in the new census of Chicago 7,318. They ought to demand a recount. There is surely a mistake, as Judge W. B. Smith will agree, we are sure.

The medical directors of one of the largest insurance companies figure from statistics that more than 8 per cent. of all the deaths in the United States are due to alcohol. Why will men continue to put down their throats that which takes away their brains and so often their lives?

Asserting that two-fifths of the men and women of the country are unmarried and that many of those who are married have no children, a Denver physician claims attention while he says that unless the stork shows more speed the last child will be born before 2012. The doctor is evidently mistaken. He hasn't taken a trip through the Kentucky mountains, or he would see that the couples in that section alone will keep up the proper birth rate for the country for centuries to come.

Some time ago a wife was fined \$300 in Danville for killing her husband. That was thought to be a pretty low price to put on even a worthless low band, but now comes news from Hart county that a man was fined one cent and costs for killing another. The value of human life seems to be always declining.

A French actress has appeared with rings in her nose. Now if she will put them on her fingers and bells on her toes, the old nursery rhyme will be brought to mind.

The summer resort at Salisbury Beach, Mass., must have had a bad season. It burned Monday, causing a loss of \$200,000.

Miss Creekmore's Position.

The Lexington papers tell of the departure of Miss Maude Creekmore, formerly of this county, to take a teaching position in the missionary training school for young ladies at Mansfield, La. Miss Creekmore is a graduate of State University, class of 1913, and is one of the most accomplished and capable young women who has gone out from that institution in recent years. The position that she has secured is an excellent one.

Farmers' Union Speaking

Hon. Wm. M. Martin, of Lexington, an orator of National reputation and an authority on farmers' co-operative and business organizations, will deliver an address to the farmers of Madison county on the subject of Marketing Farm Products, at 1:20 p. m., Saturday, September 13th.

Mr. Martin will be one of the principal speakers at the farmers' Chautauqua soon to be inaugurated in this county, and is an authority on agricultural as well as organization work. Farmers of this county will miss a treat if they fail to hear this eminent speaker at the afternoon session of the Madison County Farmers' Union meeting on the 13th inst.

Hamlet Left Out.

A circus would be a Hamletless show without elephants. The coming great Circus and Menagerie—Sig. Sautelle's latest effort—will show nine tallest, biggest pachyderms that ever trumpeted under canvas. Performing elephants, too, trained by a master to perform wonderful feats, showing intelligence and acumen. The gigantic creatures are insured against accident in \$100,000. They will appear in parade and in the ring as features.

These big accessories are especially interesting to children and students of natural history. They are a never-ending curiosity, as they always have been since elephants were first imported from Asiatic and African wilds. Watch for the unloading, if you can get out that early. The elephants will aid the men in hauling the big caravans from the trains to the show grounds.

Sig. Sautelle's 9 Big Railroad Shows, Circus, Museum, Menagerie and Wild West will exhibit at Richmond Tuesday, Sept. 23d, at the Richmond Race Park.

FARMERS' CHAUTAUQUAS

Hon. Jno. B. McFerran Much Interested in Their Success

EDITOR CLIMAX:—I see from the papers that your county is undertaking some Farmers' Chautauques. I am delighted to know it, as from experience so far in Warren county it is far and away the most practical way in which to meet and interest our rural friends that I have yet heard of.

It is really taking the gospel of Christ and of general rural uplift right out to them in a plain and practical way, that is bound to enlist their sympathetic interest and support.

This really is the work that ought to be undertaken by our State University and Normal Schools, and no doubt would be gladly done by them if they had the means. The State of Wisconsin has, by just such work, by her great University, been put far in the lead of all the States within the last decade.

As an evidence of the value of such work by the University and her Normal Schools, the recent Legislature of the State voted to them \$5,000,000 out of the treasury; four millions for each of the ensuing two years. Contrast this with our meagre \$250,000 for all purposes granted to her University by the State of Kentucky, and the cause of our State's lagging in the race may be readily understood.

Will you kindly pardon me for expressing the hope that your own wide influence and that of your good paper, the Climax, may be extended to this movement in your county most generously? This way lies our dream of the greater Kentucky.

Craving your pardon for thus intruding upon your time and patience, I am, my dear sir, with cordial good wishes, Sincerely yours,

JOHN B. McFERRAN.
P. S. Warren is in the "Pennyrite" and Madison in the "Blue Grass," and this generous rivalry means much to all the other counties who are, I trust, to come after along this line.

Wants \$30,000 Damages.

The father of Dillard Pritchard has brought suit in the Lee circuit court for \$30,000 damages against the John B. Carter Company, William Wade, powder foreman, and Price Alexander, the negro who fired the premature blast which injured Pritchard, with several other men on Sept. 1. These men were working at the steam shovel on the cut in the lower part of town on the new line of the L. & N. railroad, at Beattyville. Pritchard was brought to the Gibson Hospital, in this city, where his arm was amputated, and is doing reasonably well.

THE SENATE PASSES TARIFF BILL.

The die is cast, the Rubicon is crossed and the tariff bill which the Senate has been considering for four months is passed. The consummation so devoutly and so long desired is now at hand. The Senate made some important changes in the Underwood bill passed by the

A CORRESPONDENT takes us to task for our article with reference to Judge Speers' probable trial for impeachment in a letter appearing in another column of this issue. Our friend proceeds under mistaken statement of the charges against Judge Speers. His addition to the drug habit is only a small count in the indictment against him. The principal counts are gross favoritism and attempted bribery, together with nepotism of a very rank variety. He has done some good work, we admit, but if guilty of the charges, that counts for but little. He may not have been appointed a Federal judge because he was turned to be a Republican, but the facts are against him. He was not appointed by a Republican President until he so became. We have no objection to a man changing his politics as often as he wishes, but there is suspicion, when he is appointed to office when he makes a change.

Of course the result was the same, but the Confederates mentioned did not join the Republican party in 1895. They did support what was known as the McKinley Aid Society, the Palmer and Buckner ticket. But one of the men named sought office afterwards, and none of them ever profited by the temporary irregularity. We still maintain, even at the risk of having "chabod" inscribed on our tombstone, that a man who boxes all points of the political compass and lands in a fat office, is capable of doing the things charged to Judge Speers.

LAWYER J. H. Flood, who is the fusion nominee for county attorney of Fayette, ambled to the front and fired the first gun of the campaign Monday, the report of which is still echoing around the world. We haven't time to read the effort, but we infer by the wind-up that Mr. Flood is opposed to the boss and loyalty to party, as he tragically concluded, by shouting, "Away with them forever!" Of course after such an order they went helter-skelter, to be known no more, except in the fusion humbuggery, of which Col. Flood is the ablest exponent. Great as he is, however, he cannot beat Hogan Yancey, who bears the proud distinction of being both a good lawyer and a great base ball player. In fact, the whole fusion outfit, conceived in an over-weening desire for office and born of iniquity of false representation, seems doomed to defeat. They fooled the people four years ago, but they are onto their curves this time. They haven't made good and their claims have been shown to be unfounded. November 4 will see them discredited and damned.

It has always appeared to us that if a man wants to give tips he should do so out of his own pocket, but the Government has been paying them for men traveling for it. So far as the postoffice department is concerned, this petty graft will be cut out, except in the case of tips to train porters. Why they should be excepted, however, is not apparent. Postmaster General Burleson has issued an order that no tips but those shall be allowed after October 1, and that employees shall not use the piratical taxi cab at Government expense. High priced hotels must be avoided and such luxuries as the pretty stenographer is expressly forbidden. There are indications on all sides that the Government is going to be run on business principles and not for the benefit of its employees.

Most Governors find that it is a dangerous thing to call a Legislature into extra session, because of the uncertainty of their action and the heavy cost it incurs. Gov. Hooper, of Tennessee, is new at the business and was therefore not afraid to tempt fate by convening the body into extra session immediately after its adjournment, to enact such legislation as he desired. Alas for his hopes! He doubtless wishes now he hadn't done it. It organized by breaking away from him and his pet measures will go a'glimmering. It is often thus. Legislatures are very uncertain quantities.

This sudden death of Mayor W. J. Gaynor, of New York, in mid ocean as he was going to Europe for rest and recreation before an arduous campaign for re-election as mayor, on an independent ticket, comes with startling surprise. The old Latin proverb, "Speak no evil of the dead," reminds us to deal gently with Mayor Gaynor, who, let us remark in closing, was a failure as the chief executive of the country's greatest city.

The Lexington Herald is opposed to the piecemeal change in the State Constitution and calls for a convention to change most of its provisions, which are not in keeping with the spirit of the times. It is a waste, it thinks, to put new wine in old bottles, when new bottles are procurable. The great trouble about a Constitutional convention is the danger that it will not improve matters, while creating a further great debt on our debt-ridden State.

The chairman of the Progressive party in the Third Maine district says that the collapse of that party in that region was due to the lack of money. Considering that the Progressive vote fell off more than 50 per cent., the statement seems to prove that a great many of the so-called Progressives vote for that so-called party voted for revenue only.

We used to inveigh against the indiscriminate applications for pensions by the Federalists, but we find that the desire to get Government money is not confined to them. Already 4,300 Confederates in this State have filed applications, which if allowed, will cost the tax payers half a million of dollars a year.

One of the very best tickets ever nominated by the Democrats of Madison county is offered for the support of the voters. It appears in this issue of the Climax. Every man on it is worthy and well qualified. Cut the ticket out, paste it in your hat and be sure you mark under the rooster November 4.

Gov. E. J. McDermott is holding the job down while Gov. McCreary is attending the Perry Celebration and he sits like the paper on the wall. There are many who think he will take the job permanently at the close of the present gubernatorial term.

The Closed Season

For squirrels and rabbits begins Sept. 15 and closes Nov. 15, during which time it will be unlawful to kill them.

WITH THE STATE EDITORS

Judge S. W. Hagar is inconsolable. Says he: "As for the government warning against bad ten dollar bills, it grieves us to think that so noble an instrument as the ten dollar bill could ever be bad."

Harry Sommers' idea of an optimist is the Missouri farmer who is consoled in the knowledge that the drouth burnt up his corn so fast that the grasshoppers starved to death.

Jim Allen will not answer the Louisville woman's advertisement for a husband who has some brains and is not over 50 years old, because he says: "No man with any of 'this world's brains' would marry a woman who advertised for a husband. Better buy a wife from Sears & Roebuck, who will back her with a guarantee and send her by parcel post."

The Frankfort Star Journal had a lesson the other day in pronunciation. Yesterday it tried its hand at orthography, with not so successful result. It made fun of a fellow who spelled it "hickorynut," and then spells it "hickorynut." Itself. According to Webster's Unabridged, it is spelled "hickorynut," which is described as the fruit of the "hickory, an American juglandaceous tree of the 'hickoria,'" or words to that effect.

Ed. O'Leigh, editor of the Bowling Green Messenger, who is an authority on Scripture, says that "Spare the rod and spoil the child," is not from the good book. Not in those exact words, probably, but virtually the same. Proverbs, 13-24, says: "He that spareth the rod hateth his son, but he that loveth him chastiseth him betimes." A great many quotations thought by most people to be Scripture, are not. For instance, "God tempests the wind to the shorn lamb," is of human, not Divine origin.

The Courier-Journal propounds this conundrum: "When women get their rights will the Mann law be so amended that a Lola Norris or a Marsha Warrington will go the penitentiary for crossing a State line with a Caminetti or a Diggs?"

A community of interests is suggested by the announcement of the Mt. Sterling Advocate that it has purchased a new linotype and will set up the Gazette in addition to its own paper. That's one way to make such a machine pay in a weekly newspaper office.

Louis Landrum says that Senator Bradley made a strong fight against reduction of duty on hemp, but if he only knew how badly hemp was needed to hang a lot of culprits in this section, he would immediately turn free trader.

Although burned out last week, the Spencer Courier came out as usual this week. You can't keep good men down.

Steve K. Vaughn doesn't have very much editorial in his Winchester Democrat, but it is usually to the point and sometimes cutting.

Versailles is a dry town, yet A. A. Bomar tells in the Sun of the disgraceful acts of drunkenness of those who attended a dance given there. Two Lexington young men were arrested and the Mayor had to put extra policemen on duty to preserve order. The editor is so outraged by the conduct that he advises the young men of town to give no more balls and asks the young ladies to attend no more if given.

"Observer" in the Winchester Sun, who is understood to be Judge J. M. Benton, says that the exposure of genial Charley McDowell is likely to prove his undoing. The newspapers report him to be a very sick man now at his home in Danville, and unable to go to Washington to "clear up" his name. Some of the disclosures with reference to Mr. McDowell's conduct are enough to make a well man sick, and it is said that he has been far from well for some time.

Editor J. W. Stevenson continues to whoop 'em up for the Progressives and claims they are very strong in Laurel, but it looks like he is whistling to keep his courage up. The Bull Moose craze seems to have run its course.

Editor J. E. Robinson, of the Lancaster Record, doesn't take it as a joke. Says he: "The high cost of living is a popular joke with most of our exchange papers, but it is a very serious matter with us as we still cling to life."

Says the Harrodsburg Herald: "It is said that Judge Charles McDowell is ill and has lost twenty pounds in weight since Mulhall exposed his ability as a letter writer. But he is still hanging on to that \$3,500 job under Attorney General Garnett."

Says the Louisville Times: "Kentucky loomed large on Erie September 10, 1913, and with Tandy Ellis present in his full dress uniform none can deny that Kentucky loomed large on Erie September 10, 1913." As Tandy weighs something less than a ton the point of this will be apparent to those who do not know him.

Deals.

Hogs were 20 cents lower on the Louisville market yesterday, selling at \$8.10 to \$9 a hundred pounds.

December wheat sold at Chicago yesterday at 91 1/2 and corn for the same month at 93 3/4. This is a rise of several cents on wheat and 15 to 20 cents on corn on account of the recent crop report.

James Beam bought 200 hogs in Boyle at 8 cents.

Snakes Getting Gentle.

In a very dry section of Clark it is said that the snakes have gotten so tame in their hunt for water that they will drink out of your hand. However, we opine that few of the parasites will run the risk of serving them in that manner, when they remember what the serpent did when warmed in a man's bosom.

Strengthen Weak Kidneys.

Don't suffer longer with weak kidneys. You can get prompt relief by taking Electric Bitters, that wonderful remedy praised by women everywhere. Start with a bottle to-day, you will soon feel like a new woman with ambition to work, without fear of pain. Mr. John Dowling, of San Francisco, writes: "Gratitude for the wonderful effect of Electric Bitters prompts me to write. It cured my wife when all else failed. Get the Bitters for the liver as well. Nothing better for indigestion or biliousness. Price 50c and \$1.00 at all druggists."

Miss Nannie M. Crane is being tried for lunacy by Judge W. R. Shackelford as the Climax goes to press.

A Splendid Investment

Northern Louisiana Plantation For Sale.

This plantation contains 1,800 acres, of which 800 are in a high state of cultivation. Remainder of the place is in virgin hardwood timber, which, if worked out and sold in log at present prices, will pay twice for the land its stands on. The soil of this place is of alluvial deposit, rich and productive. It is suitable for corn, cotton, cane, oats, alfalfa, lespedeza and red clover. This land is high, dry, well drained, and does not overflow. It is in the artesian water belt. The property is located on good graded road, in four miles of railroad, is close to churches and good school.

The improvements consist of an eight room, two story residence, together with all necessary outbuildings, two mule barns, implement house, auto house, blacksmith shop, cotton gin and 25 good tenant houses.

This property, which is owned by an old gentleman who on account of extreme age, is desirous of retiring from farming, can be bought at the low price of \$25 per acre, on very liberal terms, and at that price is included all the improvements necessary for the cultivation of the place, and thirty two head of good young mules and horses.

This plantation, now stocked with high class labor, is located in the neighborhood of the large plantation recently purchased by Messrs. Thomas H. Collins and Oscar J. Patton. Also it is located in one of the best live stock sections of Louisiana, and would make an ideal stock ranch. To any one who is looking for an investment, I will say that there is not an acre of this plantation that won't produce any acre you pick in Kentucky in dollars and cents when it comes to the investment.

I will take pleasure in furnishing any further information you may wish. 92 St. J. T. FARRAR, Richmond, Ky.

A Gloomy Prospect.
Mine Host G. G. Corzelli, of the Hotel Glyndon, takes a gloomy view of the future for providing food for the public. With the present high prices continually increasing he fears he will either have to adopt the European plan or raise the price of meals to 75 cents. He is of the opinion that corn will be up to \$7 a barrel by February and that steak will reach the predicted price of 50 cents a pound. Good Lord forbid. If these fears are realized what are the poor folks to do? The answer seems to be "starve." We trust, however, that Mr. Corzelli is just borrowing trouble and looking for something to worry about.

700 Students at Berea.
Wednesday Berea College opened for the fall term, with an attendance almost as great as the institution will stand—over 700 registered. Among the new of the school are Dr. Lloyd N. His later service has been with the State Normal School at Warrensburg, Mo., and the State Normal at Whitewater, Wis. Mr. Hancock, a recent graduate of Wesleyan University, becomes tutor of English in the academy. Arthur B. Frost, of Cleveland, Ohio, becomes assistant in the foundation school; Mrs. Paul Gilbert, of Battle Creek, becomes head nurse at the hospital.

Church Notes
At the close of the services at the Methodist church Sunday morning, the pastor stated that about \$1,000 of indebtedness remained unpaid for on account of the new Sunday-school addition, and that he would like to have this paid or subscribed before he left. The congregation responded by subscribing nearly \$700 in a few minutes.

Neck Broken.
Wednesday afternoon as Mr. Charles Laustman was sitting in a blacksmith shop in Kirkville holding a horse, Dr. Boxley's machine drove by which so frightened the animal that it dashed away jerking Mr. Laustman against the fence breaking his neck and killing him instantly. Deceased was 82 years of age and leaves a widow. Those who knew the old gentleman say he was a fine man and a good citizen. No blame can be attached to the driver of the automobile who observed the usual rules of the road, but he is much depressed over the unfortunate occurrence.

DANGEROUS.
Don't let your baby play on the carpet cleaned by beating. It's impossible to get the dust and germs out unless you use a Vacuum Cleaner. Get a Domestic today. Phone 474, W. F. Higgins for free demonstration at your home.

Feudists Bound Over.
For some time past a feud has been raging around Needmore. A number of the participants were taken before Judge Shackelford a month ago, when on the promise that there would be no further war, they were let off with nominal fines. Hostilities broke out again, however, and Deputy Sheriffs Sam Bush, W. O. Harper and W. A. Johnson surprised Bob Ison, John Hornsby and Dilard Brooks at daylight and arrested them. They made no resistance and were brought to town. The three were sleeping in one room, which Mr. Bush says was a veritable arsenal, with any number of Winchester rifles, shot-guns and pistols. The officers were unable to find Dutch Powell and Robt. Powell, the other men wanted, but Huston Powell came in and gave himself up. This morning the four were brought before Judge Shackelford, who bound them over to keep the peace in bonds of \$1,000 each, which they failed to give and were taken to jail. Judge Shackelford says he will likely offer a reward for the fugitives, as he intends to have them and to break up the protracted row in that section of the county.

Means Business.
Judge W. B. Smith, who was at Winchester court yesterday, says Judge Benton called the grand jury before him and said if it found any difficulty in getting witnesses, he could furnish their names. It seems that there was one or two men at each precinct in the county taking notes. Judge Benton evidently means business.

The Spreader Sensation of the Year. We Have the Agency For It. It is the

Steel Frame Low Spread Manure Spreader

Have you ever seen any spreader with more or as many good features? Waist high box—easy to load; makes the shortest turns and spreads evenly at corners; spreads when turning either way; positive force feed—no rolling forward of the load when the manure is moved toward the beater; even spreading until the last forkful is spread; made in seven sizes; wide and narrow boxes; special attachments for drilling and spreading lime.

Ask us also about our new wide spread attachment which scatters manure over an area eight feet wide—a very handy and convenient device for top dressing growing corn.

The next time you are in town stop and get a catalogue. Ask us to show you this machine—to show you how it will save work and increase profits. Give us a chance to prove that the Low Spread tops them all.

False Beacons.

O the night lights, the white lights, That will not let me go, That glare and stare upon the air And beckon to me so: The mad lights, the glad lights That blind me to the town, They're cheering when I'm on the crest And sneering when I'm down!

The white lights, the bright lights That blaze against the sky! The call of them, the thrill of them When life is running high! The gay lights, the play lights Above the stage and press, They're crowning wealth with radiance And frowning on distress!

The white lights, the night lights! How wondrously they shine Upon the jewels and the silks The women and the wine! The bold lights, the cold lights, The city's magic lure! They never gave me faith or love, Yet they enslave me sure! —Bert Bralcy in Woman's World.

Dr. Schenck And Mother Goose.

Dr. Schenck claims that his method of dieting the Countess of Roxburgh, depriving her of sugar for several months, determined the sex of her baby, which is a boy. By this experiment Dr. Schenck has negatively confirmed the well-known dicta of Mother Goose, namely:

Sugar and spice and all that's nice— That's what little girls are made of, Snaps and snails and puppy dogs' tails, That's what little boys are made of. It is pleasant to discover that Mother Goose knew what she was talking about. Incidentally, will Dr. Schenck inform the world whether "snaps and snails and puppy dogs' tails" were included in the non-saccharine diet of the interesting patient?

This demonstration will be given on Thursday, Sept. 18, at 10 a. m., on the State Fair grounds, and should prove of interest to all farmers and hog raisers in the State. In addition to the demonstration, practical talks will be given on hog cholera, its diagnosis and post mortem lesions, the care of sick and well hogs, the work of the hog cholera serum, laboratory and State and Federal laws governing the quarantine and control of hog cholera, by Dr. Robt. Graham, Dr. J. H. Kastle, Director of the Kentucky Agricultural Experiment Station, Commissioner John W. New, and others. Altogether, this meeting promises to be one of great interest to all farmers and hog raisers, and should prove one of the most instructive and valuable features of the State Fair.

What's a Suffragette?

Here are some prize-winning descriptive epigrams submitted in a recent advertising contest in which short definitions of a suffragette were asked for:

A suffragette is a woman who thinks she has been devoted long enough.

Not satisfied with the last word, she also wants the first.

She is a woman who needs the "poll" for her vaunting ambition.

A suffragette is a sting of beauty and power forever.

A woman who would rather break windows than clean them.

A woman whose troubles are certainly not "little ones."

One who spends more time airing her views than viewing her heirs.

A woman who will spare no pains to get her rights.

A woman who would rather rock the cradle than the cradle.—Philadelphia Record.

Deals

In Real Estate, Stock and Crop Land, of Special Interest.

R. C. Gatewood has sold 183 head of export cattle to Col. Monte Fox, of Danville, at \$c.—Mt. Sterling Advocate.

The Elizabethan News reports the sale of thirty-four 900-pound cattle at 1-1-4; a car load of Jersey heifers at \$30; a car load of 800-pound beef cattle at 6-1-4 cents, and 35 cattle for September 15th delivery, at 6-1-4 cents.

The Government crop report makes the shortage of this year's corn crop over 621,000,000 bushels. The yield is placed at 2,350,000,000 bushels. The wheat crop yield is 754,000,000 bushels, or 6,000,000 more than the record crop of 1901.

Representative Britten, of Illinois, who has been investigating the scarcity of beef cattle and the consequent high cost of meat, has introduced a bill to prevent the killing of calves and to insure an increase the meat supply. The measure makes a misdemeanor the shipment in interstate commerce of beef cattle killed under two years of age. "In 1911," he says, "8,000,000 calves were slaughtered. If these calves had been allowed to live for two years, and allowing 1,400 pounds as an average weight for a two-year-old cow or steer, they would have produced 11,200 million pounds of beef to supply the scarcity we now feel."

Jones Baughman bought 13 yearling feeding cattle at 53-4c from Jack Gover. John Cress bought from Jones L. Anderson, a drove of 30 shoats at 7c a pound. They averaged 10 pounds. B. G. Gover, the Southdown sheep breeder, sold 30 head of pure bred ewes to Harry Frye, near Hubbs, at \$10 a head. W. H. Shanks bought of S. H. Baughman an extra pair of four-year-old mare mules Monday for \$350. William Grimes sold Curt Robinson, of Garrard county, a bunch of 60 light feeders and yearlings at \$6 a hundred. Green Gooch, brought up 40 head of cattle to market Monday, which sold to various parties at an average of 5-1-4c.—Stanford Interior Journal.

The Man She Wanted.

"Will you marry me?" he asked. She paused for a moment before she replied. Then she said: "Listen carefully, please. You are a man of ordinary abilities and perfectly conventional ideas. You haven't the slightest conception of the new world movement which is now taking place. You are intensely blind to all of its radicalism, intensely unoriginal, satisfied to be an intellectual nonentity, engrossed in that horrible, stagnating thing known as business, and a mental slave to the opinions put forth by your daily paper. I am a true feminist, an individual searcher, bound by no ties, seeking the highest self expression in advance art forms and acknowledging no precedent standards. Will I marry you? Of course I will. You're just the man I want."

The healing demulcent qualities of Foley's Kidney and Bladder Pills, not duplicated in any other medicine for coughs and colds. Any substitute offered you is an inferior article. Refuse to accept it for it cannot produce the healing and soothing effects of Foley's Kidney and Bladder Pills. Insists upon the genuine, which contains no opiates.

BERKSHIRE CONGRESS

Will Be Held in Connection With the Kentucky State Fair—Nine Ribbons Will Be Offered in Each Class and Some Showy Herds Are Assured.

As an example of the reputé won by the constantly enlarged and improved Kentucky State Fair celebration may be mentioned the fact that Kentucky has captured the American Berkshire Show for 1913, and this exhibition will be held at the fair grounds, in Louisville, during the coming celebration.

This national Berkshire exhibition is authorized by the American Berkshire Record Association, and is an event held from year to year at some leading state fair, the location being selected with a view to most generally benefitting the Berkshire breed, and it is a decidedly pleasing feather in the cap of Kentuckians that Kentucky was voted the next congress in preference to Illinois, which has heretofore ranked as the state preeminent in advantages to the showing of swine of all breeds, and of Berkshires in particular. In fact, Chicago has always been regarded as a Mecca for the great swine herds of the country.

The prizes offered in the Berkshire contest total up to \$14,000, the sum of \$800 having been contributed by the American Berkshire Association, a like amount by the Kentucky State Fair management, while the balance was donated by those interested in the development of the Berkshire hog. All the leading Berkshire show herds of the country will enter for exhibition, and there will be two beautiful trophies offered by the American Berkshire Association, one for Kentucky exhibitors and one open to the world. For years the association trophy has been a much coveted honor among exhibitors at the leading fairs and shows of the country, and it is a foregone conclusion that the prominence of Kentucky as a live stock state and the extensiveness of the fair exhibition will key the interest in this handsome prize up to the very highest tension.

There will be nine ribbons offered in each class, and the premium money is so distributed that any exhibitor with only a few good hogs is assured of making his expenses.

The Berkshire Congress and Swine Show will be held in the beautiful new judging pavilion erected last year, the building being a model of convenience and perfect in arrangement. It affords every advantage to exhibitor and spectator alike, and it is expected that every loyal follower of the Berkshire will flock from every part of the United States to do homage to this peerless breed.

Both in point of numbers as well as in general excellence it is expected that the Berkshire Congress at the coming Kentucky State Fair will excel the exhibits of the great International Exposition in Chicago.

There will also be splendid classes of Poland China, Duroc Jerseys, Tamworths and Hampshire hogs in addition to the Berkshire exhibits.
